

Kitchen2MyTable - Initial Client Response

Thank you for sharing the project brief, sample videos, and PHP prompt builder.

I've received everything and will review the current workflow, generated prompts, and example videos in detail. Before I begin, I have a couple of quick questions:

1. Which HeyGen subscription/plan will be available for this project?
2. Do you currently have API access enabled on the HeyGen account?
3. Approximately how many recipe videos do you plan to generate per week/month once the workflow is optimized?
4. Are there any specific issues you'd like me to focus on first (video quality, pacing, scene selection, voice delivery, prompt quality, automation, etc.)?

I'll review the provided materials and come back with recommendations for both video quality improvements and future automation opportunities.
